Dimmable	Yes
IP Rating	IP68

Dimmable	Yes
LED Type	High Power

Dimensions

Cable Length	500mm
Cut Out	40mm (Diameter)
Depth	82mm
Diameter	49mm
Tube Diameter	49mm
Tube Length	88mm

Electrical

Amperage	350mA
Maximum Wattage	3W
Requires Driver	Yes

Light Characteristics

Beam Angle	38°
------------	-----

The **Phantom Round 40° RGB** is a small recessed uplight that can be used in floors and walls. It is rated IP68, allowing it to be fitted into wet areas such as shower cubicles or outside in decking. It can be placed in zones 0, 1 and 2 of bathrooms, offering full flexibility in its placement. Constructed from marine grade steel and frosted glass.

The fitting comes complete with spring clips to mount into hollow walls and floors. It also comes with a plastic mounting box for use with brick and other solid surfaces. If used outside, it is strongly advised that *Heat Shrink* is used to protect the wiring from water.

This light does not require any wiring as it uses the plug and play system. The power cable and endcap will be needed to be connected to make the light work.

The minimum required products needed to operate multiple fittings are:

- WISERGB 350MA M: Wise Chameleon Master
- SPEC ENDCAP: End Cap
- RS2524: LED Driver
- SPECPC1: Power Cord
- Wise 7 Channel Switch or Wise 7 or 42 Channel Remote
