

Pro Reality LED Light Engine

Pro Reality LED Light Engine Module 15W 1500lm Dimmable
45° 3000K Warm White

PRO REAL50MO/45D

45° 3000K Warm White
Quicklink: Q41B4

General

Colour	Chrome
Construction	Aluminium / Plastic
Dimmable	Yes

Dimmable Yes

Dimensions

Diameter	50mm
Length	60mm

Electrical

Energy Efficiency Rating	A
Maximum Wattage	15W
Power Factor	0.90
Voltage	240V

Light Characteristics

Beam Angle	45°
Colour Rendering Index	93
Colour Temperature	3000K Warm White
Halogen Equivalent Wattage	150W
Lumens	1500 lm
Lumens Per Watt	100 lm/W

The Pro Reality LED Light Engine Module is an LED lamp that matches halogen light source. This is achieved with the use of a single Cree LED chip with a reflector built around it. The result is truly warm and gives that arc of light we are all used to seeing with halogen.

We have used an improved circuit for the LED driver for smooth, flicker free dimming. We have fully tested dimming with Lutron and various dimmer modules

The Pro Reality lamps are our most powerful LED lamps yet, but with the benefit of being energy efficient, all complying to the 2013 Part L regulations. The Lamps high lumen output make them ideal for lighting large spaces and high ceilings.

The Pro Reality ranges high CRI makes it ideal for lighting residential interiors, with its superior light bringing out all the colours, materials and textures of the home. The perfect colour spectrum of the light also makes the lamps ideal for lighting artwork and ornaments.

Key Features

- Replicates halogen reflector
- Colour Rendering Index of 93
- LED positioned further back for anti glare
- Complies with 2013 Part L regulations
- Fully dimmable with leading & trailing edge dimmers
- Equivalent to 150W Halogen
- Estimated lifetime of 25,000 hours
- Fits 50mm Downlight
- LED Chip 10° : CREE MHD-G 7070 chip
- LED Chip 45° : CREE CXA1820 chip

Please Note: This LED lamp comes with a one year warranty as standard.
