LEDCANDLE 143167

5W 2800K Warm White
Quicklink: Q41B9

The **LED Candle SES 5W** is designed as a direct retrofit replacement for halogen BC lamps. It has a comparable light output and beam spread to its incandescent and halogen equivalents but is up to 80% more energy efficient and has a far greater life span. The LED technology used in this lamp give it the comparable benefits of being entirely mercury free, producing little or no heat and having no ultraviolet or infra-red light in its output.

General

Cap SES / E14
Colour Clear,White
Construction Aluminium / Plastic
Dimmable Yes

Dimmable Yes

Dimensions

Diameter 35mm
Length 99mm

Electrical

Energy Efficiency Rating A+
Maximum Wattage 5W
Voltage 240V

Light Characteristics

Colour Temperature 2800K Warm White
Lumens 400 lm
Lumens Per Watt 80 lm/W
