## LEDGOLF6W ES CL

6W 2800K Warm White  
Quicklink: Q41C4

The **LED Spherical ES / E27 6W** is designed as a direct retrofit replacement for halogen ES lamps. It has a comparable light output and beam spread to its incandescent and halogen equivalents but is up to 80% more energy efficient and has a far greater life span. The LED technology used in this lamp give it the comparable benefits of being entirely mercury free, producing little or no heat and having no ultraviolet or infra-red light in its output.

### General

Cap	ES / E27
Construction	Plastic / Glass
Dimmable	Yes

### Dimensions

Diameter	45mm
Length	90mm

### Electrical

Energy Efficiency Rating	A+
Maximum Wattage	6W
Voltage	240V

### Light Characteristics

Colour Rendering Index	80
Colour Temperature	2700K Warm White
Lumens	470 lm
Lumens Per Watt	78 lm/W
