CLESSIDRA40 BRN

10W Bronze 40°
Quicklink: Q41F4

The **Clessidra LED Wall Light** designed by Antonio Citterio emits a 40° beam of light from both the top and bottom of the fitting. Suitable for use indoors including bathroom areas and also great for outdoor use.

Body obtained by means of aluminium pressofusion and diffusers in PMMA. Aluminium wall attachment with cover in PA66. Available in white-painted or chrome-plated for indoor version. High-efficiency lenses specially designed for the application, non-replaceable. Wide range (100-240Volt) power pack integrated in the body.
