Light Characteristics

Colour Rendering Index 80
Colour Temperature 2700K Warm White
Lumens 280 lm
Lumens Per Watt 70 lm/W

LED Carbon Filament lamps offer a energy efficient alternate to carbon filament lamps, while providing the same aesthetically pleasing look and upto 5x lamp life. Each lamp contains strips of LEDs emitting light in all directions ideal for decorative fittings.

When used in conjunction with a dimmer, we recommend a load of at least 40W in order for the lamps to work to their full potential.

Please Note: This LED lamp comes with an automatic one year warranty as standard.
