Cube Three Circuit Track GU10 Spotlight
35W White

MR. RESISTOR[®]
Lighting Specialist Est. 1968

TK3CUBE1 WHT

35W White

Quicklink: Q4228

General

Cap	GU10
Colour	White
Construction	Aluminium / Plastic
Dimmable	Yes

Dimensions

Head Length	122mm
Head Width	63mm
Height	200mm
Horizontal Rotation	360°
Vertical Rotation	90°

Electrical

Maximum Wattage	35W
Voltage	240V

The **Cube Range** lights are three circuit track 240V spotlights used to highlight certain focal points.

The fittings are positioned onto track which can be mounted onto practically any surface. This allows you to move and change your light fittings around when you need to, without having to make any long term installations.

Three circuit track lighting is a versatile and flexible lighting system commonly used in commercial and residential spaces. The singularity of this lighting track system is that each of the three circuits can be wired and controlled independently, allowing you to have different lighting configurations in the same space. This means you can have multiple sets of lights on the same track, each set with its own switch or dimmer control.

Please note: The Cube Short Spotlight range is designed to fit the short and long length GU10 lamps.
