

LED G9 Switching

G9 LED 2.5W 210lm Switching Capsule Bulb 240V
2.5W (=18W) 4000K Cool White

LEDG9 2.5W COOL

2.5W (=18W) 4000K Cool White
Quicklink: Q42BC

The LED G9 Capsule Lamp is designed as a direct retrofit replacement for halogen G9 lamps. It has a comparable light output and beam spread to its incandescent and halogen equivalents (25W) but is more energy efficient and has a far greater life span. The LED technology used in this lamp give it the comparable benefits of being entirely mercury free, producing little or no heat and having no ultraviolet or infra-red light in its output.

General

Cap	G9
Colour	White
Construction	Plastic
Dimmable	No

Dimmable	No
----------	----

Electrical

Energy Efficiency Rating	A++
Maximum Wattage	2.5W
Voltage	240V

Light Characteristics

Colour Temperature	4000K Cool White
Lumens	210 lm
Lumens Per Watt	84 lm/W
