

EX-3D END CAP

CLEAR

Quicklink: Q42F7

Dimensions

Length	30mm
Width	20mm

The **3D Endcap Plastic** is used in conjunction with the *STOS Surface Extrusions*.

Its purpose is to seal up the furthest end of the extrusion to ensure small objects such as dust cannot enter the fitting to interfere with the electrical components inside.

Only 1 endcap is required for each circuit of Tapelight. This means that if you buy 2 x 2m of extrusion, you would only need an endcap on the final piece.
