General

Cap	GU10
Colour	White
Construction	Die-Cast Aluminium
Dimmable	Yes
IP Rating	IP20

Dimmable	Yes
----------	-----

Dimensions

Cut Out	82mm (Diameter)
Horizontal Rotation	350°
Minimum Ceiling Depth	100mm
Vertical Rotation	35°

Electrical

Energy Efficiency Rating	A
Maximum Wattage	5W
Power Factor	0.95
Voltage	240V

Light Characteristics

Beam Angle	45°
Colour Rendering Index	80
Colour Temperature	3000K Warm White
Halogen Equivalent Wattage	50W
Lumens	500 lm

The Rock 'n' Roll LED GU10 Reality adjustable downlight has an integrated black baffle that recesses the light source to eliminate glare. It comes complete with a **5W LED Retro Reality Lamp**.

Its inner and middle ring tilt through 35° and rotate through 350° respectively. A combination that allows you full control over the direction of the light source.

When fitted the outer ring is permanently attached to the ceiling while the two inner rings, which form one unit, can easily be pulled out to reveal the lampholder. This makes lamp replacement effortlessly simple.

The **Reality GU10 LED 6W Retro** is an LED lamp that matches a halogen lamp in terms of light source and aesthetics. This is achieved with the use of a single Cree LED chip with a reflector built around it. The result is truly warm and gives that arc of light we are all used to seeing with halogen.

The GU10 Reality Lamp is equivalent to a 50W GU10 halogen lamp and, like a halogen lamp, is dimmable.

Key Features

- Replicates halogen reflector
- LED positioned further back for anti glare
- Complies with October 2010 Part L regulations
- Fully dimmable with leading edge dimmers
- Equivalent to 50W GU10
- Fits GU10 lampholder
- Emergency option available
