The **Camera Spot Mini** trim is a directional and is used for accenting and highlighting small areas or specific items.

The **MR8 LED 3W** is a lamp designed to fit any MR8 lampholder. The MR8 LED 3W is fully dimmable with all leading edge dimmers and also complies with 2013 Part L Regulations

Fully dimmable with leading edge dimmers

Equivalent to 25W GU10

The Invisible range has been **designed to be overpainted in Situ** in the ceiling if necessary. The fitting is painted RAL9010 - 30% Gloss level which has a slightly matt surface, to which the emulsion or other paints will adhere to. The finish from the factory is good enough for normal use and will blend in with the most common ceiling finishes. The slightly matt finish on the product will allow it to be carefully repainted to suit any other ceiling colours.
