The Aqua Triple is a powerful and efficient lighting solution that is designed for use in bathrooms, wet rooms, and other damp or humid environments. With its IP44 rating, it is protected against water ingress, making it suitable for use in zones 2 and 3.

This fitting is fully dimming compatible, allowing you to adjust the brightness to suit your needs. It requires 3 x 6W or below GU10 LED lamps, providing a bright and energy-efficient lighting solution. The sleek design ensures that it blends seamlessly into any space, adding a modern and stylish look.

Additionally, single and bar versions of this product are also available, providing even more options for illuminating your space. Whether you're looking to add a touch of elegance to your bathroom or create a functional and practical lighting solution for your wet room, the Aqua Triple is a versatile and practical choice. With its triple lamp design, it provides a powerful and efficient lighting solution that is perfect for illuminating larger spaces.
