JFTK3 TUBE38 S3

Silver 3000K Warm White
Quicklink: Q480D

General

Colour	Silver
Construction	Metal
Dimmable	Yes

Dimensions

Head Length	156mm
Head Width	76mm
Height	168.8mm

Electrical

Maximum Wattage	25W
Voltage	240V

Light Characteristics

Beam Angle	38°
Colour Rendering Index	90
Colour Temperature	3000K Warm White
Lumens	3099 lm
Lumens Per Watt	124 lm/W

The **Tube Three Circuit Track Lights Range** fittings are 240V dimmable spotlights mainly used to highlight certain focal points. The fittings have a built in LED and a high lumen output, making them low energy and powerful light sources, ideal for commercial or residential use.

The fittings are positioned onto the surface or recessed three circuit track lighting system which can be mounted onto practically any surface. This allows you to move and change your light fittings around when you need to, without having to make any long term installations.

Three-circuit track lighting is a versatile and flexible lighting system commonly used in commercial and residential spaces. The singularity of this lighting track system is that each of the three circuits can be wired and controlled independently, allowing you to have different lighting configurations in the same space. This means you can have multiple sets of lights on the same track, each set with its own switch or dimmer control.

Please note: the barn doors, honeycomb baffle and gold reflector accessories are sold separately - see linked products
