The **PL-PDM Mounting Bracket** enables connection of profiles in a single line of any length to create a spectacular line of light.

3 mounting brackets are need per metre.

5 mounting brackets are need per 2 metres.

Small size, easy fitting, secure and stable mounting to different types of surfaces. Clipping and unclipping of the profile is possible without the use of tools.

NOTE: Mounting bracket is designed for use with the Micro, Oval, Regular and Tami extrusions only - see linked products. Indoor use only.
