2000mm Frosted
Quicklink: Q4857

General

Construction Plastic

Dimensions

Length 2m
Width 13mm

The **Tami Extrusion Diffuser** is used in conjunction with the **Tami** ranges of Extrusion.

It is required to diffuse the LED Tape and give an even glow on surfaces. Light transmittance is 85%

NOTE: Instead of clicking into the top of the extrusion - this diffuser slides into the end of the extrusion using the grooves as a guide.
