Weight	1.2kg

Dimensions

Cut Out	70mm (Diameter)
Depth	11mm
Diameter	110mm
Minimum Ceiling Depth	122mm

Electrical

Maximum Wattage	50W
Voltage	12V

The **Ice Fire Round** is a fixed downlighter constructed from clear glass with polished chrome detailing. Suitable to light small areas in any room in the home; including bathrooms, wetrooms and shower enclosures. This is due to its IP65 rating, which allows placement in zone 1 and 2 (see technical tab). Another option is to use it for cabinet or shelf lighting.

In addition, this fitting is fully fire rated for up to 90 minutes, requiring no additional firehood. It meets BS 476: part 21, as well as the following building regulations:

- **Part B** - Fire Safety
- **Part C** - Moisture Protection
- **Part E** - Acoustic rating

Constructed from steel and glass and finished in polished chrome. The total depth of this fitting is 122mm, which includes the 10mm glass and metal plate that sits outside the ceiling cut out. There must be a 150mm clearance all round the downlight for maximum fire resistance.

A transformer is required to connect this fitting to mains supply. A 50W GU5.3 low voltage halogen lamp must also be purchased separately.

Please note: Only Stock Available to Order.
