X Firefly Laser special effect garden spike light, illuminate any garden or outdoor area with a 1000 point laser spike light. The RGB laser light can produce 3 individual colours or combine colours for special effects, set the laser light to to flash on and off or remain constantly on. The X Firefly can cover large areas and reach areas traditional lighting can not.

The laser landscape is great for outdoor decoration whether you are decorating for parties or holiday. The plug and play system makes it easy to install, just plug in and point in desired location, eliminates the need for setting up complicated string lights during the festive period .

Includes a mains plug transformer for powering a single X Firefly laser light.

Please Note: This transformer must be enclosed within a waterproof outdoor enclosure.
