Electrical

Voltage	31V
---------	-----

LED String Fairy Lights offer an alternative to conventional string lights, the small LEDs provide longer lamp life, better light efficiency as well as a brighter and more vivid colour. The lights are low voltage and suitable for indoor and outdoor use.

Please note: the transformer must always be kept indoors in a dry place or in an approved waterproof outdoor socket. The LEDs themselves are 31V but includes a power adaptor to plug them directly into a 240V 13A socket.

Multi-function memory controller included to create the following effects:

- Comb
- In Waves
- Sequential
- Slo-Glo
- Chasing / Flash
- Slow Fade
- Twinkle / Flash
- Steady on
