Dimensions

Base Diameter	78mm
Depth	90mm
Height	115mm
Width	63mm

Electrical

Maximum Wattage	35W
Voltage	240V

The **Smooth Lacquered Pillar Downlight** is an IP65 rated fitting suitable for location on any exterior wall. It can be mounted either upwards or downwards for one way wall washing ideal for producing a feature around doors or along pathways.

The head easily screws off for accessing the lamp. Fixing screws for mounting the base to a wall and an Allen key for accessing wiring in the base are included. The length of the barrel allows this fitting to be used with halogen, compact fluorescent and LED lamps (available separately). Please note that oxidation due to weathering will turn copper fittings a greeny colour over time.

Please Note: that this product is lacquered meaning that it will keep its glossy look even over a long period of time.
