Dimensions

Diameter	200mm
Height	960mm

Electrical

Maximum Wattage	40W
Voltage	240V

The versatile modular **Globe** lighting system creates a full Globe lighting theme to a street or garden. A range of mounting accessories enables multiple Globes to be installed on posts of varying heights offering consistency across the design - no matter how large the project might be.

The Globes incorporate an ES lampholder and base plate that quickly connects to whatever mounting accessory required: pedestal mount, wall bracket or post, and are rated at IP44 for outdoor use. The Globe lights are available in four sizes (200mm, 250mm, 300mm and 400mm), and four finishes (opal, clear, smoked and metallic).

These are 240v mains operated, and all components are constructed using a tough shock resistant polycarbonate, giving years of reliable service.
