

LED G9 Dimmable

G9 LED 3W 300lm Dim to Warm Capsule Bulb 240V
3W 2200K - 3000K

3/2 LEDG93WD

3W 2200K - 3000K
Quicklink: Q4BE2

General

Cap	G9
Colour	White
Construction	Plastic
Dimmable	Yes
IP Rating	IP65

Dimensions

Height	49mm
Width	14mm

Electrical

Energy Efficiency Rating	F
Maximum Wattage	3W
Voltage	240V

Light Characteristics

Colour Rendering Index	82
Halogen Equivalent Wattage	25W
Lumens	300 lm
Lumens Per Watt	100 lm/W

The **LED G9 Capsule Lamp** is designed as a direct retrofit replacement for halogen G9 lamps. It has a comparable light output and beam spread to its incandescent and halogen equivalents but is more energy efficient and has a far greater life span. The LED technology used in this lamp give it the comparable benefits of being entirely mercury free, producing little or no heat and having no ultraviolet or infra-red light in its output.

This lamp emits a warmer light as you dim, to create a more relaxing ambience. The effect known as Warm Dimming does not have anything to do with the actual heat or physical warmth of the bulb, it is when an LED bulb's colour temperature lowers when dimmed. The lower the brightness the warmer the colour. This is a natural replication since at sunset the sky appears more warm in colour, which puts our minds in a different gear and helps transition us to the night-time. Many incandescent and halogen bulbs naturally have this effect, yet are inefficient. When the Reality Atmosphere Lamps dim, they retain their high efficiency, yet still produce the relaxing and comforting feel of an appealing "warmer" glow.
