

LED RGB Tape Ultra Bright Seamless 240 19.2W 24V

LED RGB Tape Ultra Bright Seamless 5m (240xSMD 3535 LEDs/m) 24V
144W (1m=28.8W) 5 metres

TAPEC240HP5M RGB

144W (1m=28.8W) 5 metres
Quicklink: Q4C26

General

Construction Plastic
IP Rating IP20

LED Chip SMD 3535
LED per Tape 1200 (240/metre)

Dimensions

Cut Length 50mm
Height 3.2mm
Length 5m
Width 12mm

Electrical

Maximum Wattage 144W (5 x 28.8W)
Voltage 24V DC

Light Characteristics

Watts Per Metre 28.8 W/m

LED Tape is a versatile light source with a wide range of uses that can be either decorative or functional. Easy to install with pre-fitted double-sided backing tape and can be cut to a specific length.

Anything from a short linear run of light for under cabinet or plinth lighting, shelving or back lighting mirrors to large scale applications such as low level lighting in corridors, dropped ceilings, cove lighting, doorways, handrails and staircases can be achieved. A wide range of extrusions and diffusers are available to suit any location and produce different effects.

This tape is RGB colour changing LED and is a 5 metre reel which cannot be extended any further. For lengths of more than 5 meters, a separate length of tape must be used on a separate power cord which is then wired back in parallel to our Wise chameleon controller. Using the Chameleons master and slave connectable receivers, any length of tape can be used simultaneously.

LED RGB Tape Ultra Bright Seamless 24V must be installed in an **Aluminium Extrusion** with a minimum depth of 12mm. Once installed the tape must be accessible.
