LED per Tape	60 per cut length

Dimensions

Cut Length	2m
Diameter	13mm
Length	2m

Electrical

Maximum Wattage	8W
Voltage	240V

Light Characteristics

Colour Temperature	2700K Warm White
Lumens	500 lm
Lumens Per Metre	250 lm/m
Lumens Per Watt	63 lm/W
Watts Per Metre	4 W/m

LED Ropelight 5050 has many benefits over standard ropelight. The advantages include 50,000 hours life, a bright and sharp light source and low power consumption with virtually no heat. This means that it can safely be rebated instead of being surface mounted.

LED Ropelight 5050 has high visibility, making it ideal for use on buildings, signs and gardens. It also gives a subtle glow of light that is ideal for mounting into shelves, under cabinets and coving.

This fitting has a waterproof rating of IP44 only when both ends are sealed. This can be achieved by using waterproof glue or silicon. A power connector lead is attached at one end and an end cap is fitted at the other end.

Please note that LED Ropelight 5050 can only be cut every 2 metres. The price quoted is per 2 metre length. This product comes on a 100m reel.

Features:

- High lumens output
- Eco friendly material
- Low power consumption
- Suitable for indoor & outdoor use
- Very flexible & durable
- Made from a UV resistant material that reduces rate of weathering

Please Note: Once Ropelight is cut it cannot be returned.
