Voltage	240V

The **LED Floodlight Spike RGB** is ideal for lighting driveways, gardens and buildings. The LED floodlight gives a bright vibrant light and is more energy efficient than equivalent halogen floodlights. Its robust aluminium casing and IP65 rating make this fitting weather proof and durable.

Its internal memory means the light always returns to the last colour setting—even after being switched off at the mains.

The included RF remote offers effortless control with a range of up to 25 metres and does not require direct line of sight, making colour changes quick and convenient.

This fitting is not mains dimmable. It can be 25%, 50%, and 75% dimmed via the RF Remote
