Construction	Plastic

Dimensions

Cable Length	1500mm
Cut Out	95mm (Diameter)
Depth	490mm
Diameter	112mm
Minimum Depth	490mm

Electrical

Amperage	13A
Maximum Wattage	3120W
Voltage	240V

With the touch of a button your Pop Up Socket will automatically rise to reveal twin USB charger ports and 3 UK sockets.

Features include:

- Anti pinch function: If the unit is obstructed during a closing operation, the anti pinch function will reverse the direction of travel momentarily, and then pause all movement. The operation LED will flash red to indicate that the anti pinch function has been activated. When the button at the top of the unit is pressed again, the unit will fully raise and return to normal operation.
- Anti-collision function: If the unit encounters an obstruction during a raise operation, the anti collision function will activate and the unit will pause. To indicate that the anti obstruction function has activated, the indicator LED will flash yellow. Once the obstruction has been cleared, the unit can be returned to normal operation by pressing the button on the top of the unit once again.

One key design: This item has been designed with simplicity and ease of use in mind. For this reason, all operations are controlled using a single button on the top of the unit. Neon indicator light when in operation.

With the touch of a button your Pop Up Socket will automatically rise to reveal twin USB charger ports and 3 UK sockets. Features include:

- 3 x UK sockets with 2 x USB-A+C ports.
- Silver finish
- Motorised pop up socket. Touch the power button on the lid for the socket to automatically rise.
- Easy to use; single button control.
- Anti pinch and collision function stops the pop up socket when an obstruction is detected.
- Accidental operation protection; automatic timer delay to prevent accidental activation by children or pets.
- Twin USB-A+C charging ports and 3 UK sockets.
