Quicklink: Q4F5D

General

Cap	G23
Construction	Glass / Plastic

Electrical

Maximum Wattage 26W

Light Characteristics

Colour Temperature 2700K Warm White

This non-integrated **Compact Fluorescent** lamp is designed for use with light fittings that contain a ballast and have the corresponding 2 pin lamp socket. Its long life span and high energy efficiency make it a desirable option where a constant light source is required for long periods. This minimises maintenance making it extremely useful in a variety of retail, commercial and domestic situations. The non-directional light source produced by these lamps is ideally suited for general lighting where an even light source is desired.
