Grid Diameter	192mm
Horizontal Rotation	360°
Minimum Ceiling Depth	70mm
Vertical Rotation	40°

### Electrical

Maximum Wattage	32W (2 x 16W)
Voltage	24V

The **Trimless Round Adjustable LED RGBW Module AR111 Downlights Kit** includes two trimless round adjustable downlights, two RGBW 3000K warm white modules and a Wise Chameleon RGBW master to control the colour change. It is designed to be plastered into ceilings to give a **seamless** appearance. One of the advantages is that the downlight can be installed then plastered and painted.

This kit is fully customisable for adding more downlights and control options - please call for further advice.

The **Wise RGBW V2 Master** gives you all the colour change facilities of the standard Chameleon, with the inclusion of a fourth channel to work with red, green, blue and white fittings. This allows the ability to have colour change and warm or cool white using just one chameleon pack. It also gives a greater range of shades of colour including pastels to give a more subtle effect.

The **LED RGBW Module** is an LED lamp which is colour changing combined with a warm white 3000K colour temperature.

The LED RGBW Module 16W Module is equivalent to a AR111 halogen lamp and, like a halogen lamp, is dimmable. It lasts for 25,000 hours and consumes just 16W.

### Key Features

- Colour change with 3000K colour temperature
- Complies with 2013 Part L regulations
- Fully dimmable with leading edge dimmers
- Fits AR111 Downlight
