EM NLP1TP40

3W - 80W

Quicklink: Q519E

General

IP Rating IP20

Battery Life 3 hrs

Emergency Type Maintained

Dimensions

Battery Length 94mm

Height 22mm

Length 231mm

Width 33mm

Electrical

Amperage 100mA, 2000mA

Input Voltage 230V

Maximum Wattage 80W

Minimum Wattage 3W

Output Voltage Drivers with 6 - 55
Volts

Voltage 240V

The EM NLP1TP40 is a 3-hour emergency lighting conversion kit which operates with Long Life LiFePO4 batteries. The unit is designed to suit an extremely wide range of LED constant current circuits. The NLP/1/TP40 automatically adjusts the output LED current to provide the best match between the battery and the load, providing maximum illumination whilst ensuring full battery duration. The batteries used with this unit not only provide double the life of traditional emergency lighting batteries but consume far less power during their operational life.

Caution: Any product is not linked to this Kit must be tested to confirm 3hrs duration Test
