

Fuse

Fuse 3 LED USB-A Wall Light 240V

3.5W Matt Nickel

FUSE 1215084NK

3.5W Matt Nickel

Quicklink: Q5302

General

Colour	Nickel
Construction	Metal
Dimmable	No
IP Rating	IP20
Weight	830g

Dimensions

Height	200mm
Horizontal Rotation	330°
Vertical Rotation	90°
Width	75mm

Electrical

Maximum Wattage	3.5W
Voltage	240V

Light Characteristics

Colour Rendering Index	90
Colour Temperature	2700K Warm White
Lumens	171 lm
Lumens Per Watt	49 lm/W

The **Fuse USB** range is a collection of modern, recessed switched fittings that offer directional lighting that is both stylish and practical. The adjustable head allows for precise positioning of the light source, making it an ideal choice for a variety of lighting applications.

These fittings feature an anodized aluminium finish, which not only enhances their sleek and modern appearance but also makes them incredibly durable and reliable. The anodized finish protects the fittings from corrosion and wear, ensuring that they will last for many years without losing their quality or performance.

One of the standout features of the Fuse range is its integral switch, when you close the spotlight, it turns itself off automatically, making it an energy-efficient and convenient choice for your lighting needs.

In addition to the integral switch, the Fuse range also features a USB-A port, allowing you to conveniently charge your electronic devices while using the light.

The Fuse range offers a tilt adjustable angle of 90° and a rotation adjustable angle of 330°. This allows you to adjust the direction of the light to suit your specific needs, providing maximum flexibility and versatility in your lighting design.
