General

Colour	Grey
Construction	Rubber

Dimensions

Diameter	9.5mm
Length	1m

Upgrade your cable management with this high-performance 19mm grey heat shrink tubing. Featuring a powerful 2:1 shrink ratio, it compresses down to 9mm when heat is applied, making it ideal for shielding irregular shapes, large joints, and transitions.

Crafted from durable, flexible polyolefin, this 3-meter sleeve provides excellent electrical insulation and superior resistance to abrasion, moisture, and fluids. Perfect for automotive, industrial, or home electronics projects requiring heavy-duty component protection and clean wire bundling
