Dimensions

Depth	72.5mm
Height	21.5mm
Width	18.5mm

This heavy-duty mounting carrier (WAGO 2273-500) allows you to transform loose WAGO 2273 push-wire connectors into a neat, secure, and organized terminal block. Designed for versatile installation, it can be snapped directly onto standard 35mm DIN rails or screw-mounted straight onto flat walls and panels. It provides a stable, professional mounting point that complies with modern electrical wiring regulations for fixed connections.
