Radio Frequency 868.3 MHz

### Dimensions

Depth	25mm
Height	80mm
Width	80mm

### Electrical

Maximum Wattage	400W
Voltage	240V

This kit consists of the Wise Mouse Blind Switch Daylight Sensor & Wise Blind Receiver 240V

The **Wise Mouse Blind Switch** is a wireless two channel switch used to control blinds with daylight sensor.

Wireless switches can be used to control any of the receivers in the Wise Controls range. The function of the switch, and each of its buttons, depends upon the function of the wireless receiver it is programmed to. Therefore a single button can be used for a variety of functions including, but not restricted to, on/off, dimming or master off only.

### The Wise Blind Receiver

The **Wise Blind Receiver** can control up to 400 watts of blinds. Input for dynamic push button with open/stop/close function.
