| Lumens             | 350 lm           |
| Lumens Per Watt    | 18 lm/W          |

The **Clyde Pendant** has a built-in moodmaker function, which allows you to adjust the light in three steps according to needs and situation from your regular wall switch. If you have a long dining- or kitchen table, Clyde is the perfect pendant as the four light sources emit lots of light. With the thin design, the pendant does not cut the visibility or take up any unnecessary space in the room. Moreover, the built-in moodmaker function enables you to change the light from a functional light when the kids are doing homework to a warm cozy light when eating dinner with friend and family.

#### 3-Step MoodMaker dimming function

- Step 1: Centre + Ring Light On
- Step 2: Centre Only
- Step 3: Ring Light Only
