Voltage	240V
---------	------

The RGB Laser Light with Bluetooth Speaker projects moving vivid red, green, and blue laser effects patterns, filling walls, ceilings, and outdoor areas with dynamic colour. Choose from multiple motion settings – from static projection to slow fade or flashing effects – to set the perfect mood for Christmas celebrations, Halloween displays, or any party..

The built-in Bluetooth speaker lets you stream music directly from your smartphone, while the sound-activated mode synchronizes the light effects to the beat for an unforgettable experience. The unit features plug-and-play installation, a durable aluminium body, and an IP65 weatherproof rating, making it perfect for year-round use indoors or outdoors.

Includes a mains plug transformer for powering a single Laser Spike light.

Please Note: This transformer must be enclosed within a waterproof outdoor enclosure.

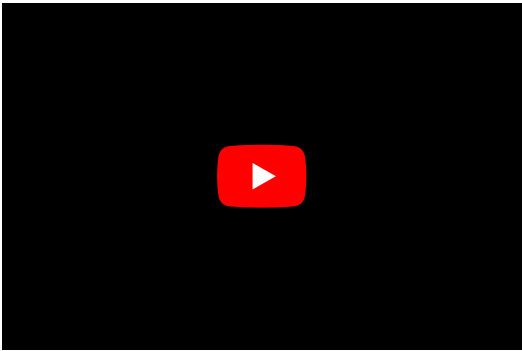

Features

- 18 Laser Projection Patterns – Includes festive designs for Christmas, Halloween, and parties.
- Dynamic Motion Settings – Choose from static, fade, or flash modes for different effects.
- Built-in Bluetooth Speaker – Stream music wirelessly from your device.
- Sound-Activated Mode – Lights move in sync with your music.
- Plug & Play Installation – Quick setup with included base and ground spike for flexible mounting. Includes a mains plug transformer for powering a single laser light.
- Durable Aluminium Body – Strong construction with excellent heat dissipation.
- Weatherproof Design (IP65) – Suitable for outdoor use in all weather conditions.
- Remote Control with Battery Included – Adjust settings easily from a distance.
