The **Real Colour GU10** has Rich reds, pretty pinks, and gorgeous greens. The Real Colour GU10 Spotlights utilise a chip-on-board LED with high colour rendering (CRI 95) to bring out the colour in any space; including homes, retail businesses, galleries and showrooms.

Your colours will appear more vibrant and better defined than with a standard LED spotlight (CRI 80) - ideal for showing colourful furniture, artwork, fashion, food and other retail products at their best. The crystal-effect lens adds a retro sparkle that delivers a diffused light and looks good when the lamp is on or off.

- See real colours with high CRI 95
- 345 Useful Lumens in a 90 degree cone (400 Nominal)
- Dimmable with compatible dimmers
