Depth 80mm

Height 184mm

Width 200mm

Electrical

Amperage 20A

Maximum Amps /
Circuit 10A

Minimum Wattage
per Circuit 1W

Voltage 240V

The **Wise Box Kit** is a wireless switching system. It contains all the components required to achieve wireless lighting controls.

The Wisebox unit will control your lights, water features, electric shutters and gates etc. Once programmed, place the indoor wireless switch in a suitable location and the installation is complete. Enjoy switching your circuits from anywhere in your garden or home with the remote control.

The WiseBox Kit has a receiver that has four 10 amp circuits with a maximum amperage of 20 amps. The WiseBox kit has a 200 metre range. These circuits can be changed from switching to an open circuit. Each circuit on the WiseBox is fused individually with a 10 amp fuse to protect all the circuits.

The kit also includes a 4 button remote keyfob and a 4 button wall switch.

Wise Switches / Remotes

The keyfob and the wall switch included within the kit both have four buttons. Once you have programmed the button of your choice to link with a channel, that button will switch the channels circuit on / off. You can add additional switches and remotes to a WiseBox if you wish, up to a maximum of 16.
