The Minimalist **LED Panel Surface Mounted Frame** is a sleek and modern solution for commercial and retail environments. This frame is designed to accommodate LED panels, and provide a clean and professional look.

The surface-mounted design allows for easy installation, and the frame has enough space to conceal wiring and LED drivers, creating a neat and organised appearance. The minimalist design of the frame is perfect for any modern commercial or retail space, it will provide bright and even light while keeping a clean and professional look.
