Lumens Per Watt	100 lm/W

SlimLite is an innovative new lighting solution for displays, cabinet and retail store fixtures.

It is perfectly suited for display and retail store fixture applications since its compact size fits even the narrowest space, providing excellent fluorescent light as well as a great appearance.

The SlimLite series and its integrated connecting system saves valuable installation time while providing continuous lines of light. It features a built in electronic ballast and standard T5 lamps that are available in a variety of light colours.

The SlimLite series is particularly appealing in applications where heat sensitivity is an issue. Products can be beautifully displayed without damage from high heat levels. Its optional diffuser cover also makes it the preferred light fixture for food applications.

Features

- Energy Efficient, only 21W - 2100 initial lumens
- Uses a standard T5 lamp, 82 CRI
- Optional diffuser cover available
- Built in electronic ballast
- Instant on starting, quiet and flicker free
