Quicklink: Q6408

General

Colour	White
Construction	Aluminium
Dimmable	Yes
IP Rating	IP20

Dimensions

Diameter	35mm
Height	155mm
Length	91mm
Vertical Rotation	45°

Electrical

Maximum Wattage	7W
Voltage	48V

Light Characteristics

Beam Angle	15,50°
Colour Rendering Index	90
Colour Temperature	3000K Warm White
Lumens	560 lm
Lumens Per Watt	80 lm/W

The **Small Adjustable Spotlight** for the Laser Track 6mm features an adjustable beam angle ranging from 15° to 50°. It has a rotative arm, allowing precise control over the direction of the light. The magnetic fitting securely attaches to the track, allowing easy moving whenever necessary. Whether you want to change the lighting arrangement in a room or experiment with different angles, it offers the freedom to adapt your lighting setup without hassle.

The Laser ultra slim 48V track system is an innovative lighting solution that seamlessly integrates with your ceiling. With a depth of only 6mm, it creates a modern and clean finish, giving the impression of being plastered in. This surface-mounted system is specifically designed for easy and fast installation. Each rail track has several holes to be screwed in until the whole rail is securely fixed to the ceiling.

Ideal for residential use thanks to its slim depth and long run, the Laser Track allows for a wide range of lighting configurations. By clicking the power feed into your desired position, you can easily run the track and fittings along the ceiling or walls with the help of joints, offering flexibility in your lighting scheme.

The magnetic fittings provide an easy solution for flexible lighting design, allowing a seamless combination of various LED fixtures on a single track. The intuitive magnetic design makes it easy to reposition light fixtures, making the installation process straightforward and hassle-free.
