LED Tape RGB Tunable White CCT 24V

LED Strip Flexible Tape Light 5 in 1 LED RGB CCT IP67 Zonik Wifi and Bluetooth Smart Kit 24V

120W (24W/m) RGB CCT 2500K + 6000K

TAPERGBCCT SMART IP67

120W (24W/m) RGB CCT 2500K + 6000K

Quicklink: Q6516

General

IP Rating	IP67

Dimensions

Height	3mm
Length	5m
Width	13mm

Electrical

Input Voltage	24V
Maximum Wattage	120W (5 x 24W)

Light Characteristics

Beam Angle	120°
Watts Per Metre	24 W/m

The **RGB+CCT 5-in-1-LED Strip Flexible Tape Light** is a super quality LED tape that includes 5 LED chips in a single tape and 60 high quality LEDs.

LED Strip Flexible Tape Light is a versatile light source with a wide range of uses that can be either decorative or functional. Easy to install with pre-fitted double-sided backing tape and can be cut to a specific length.

Anything from a short linear run of light for under cabinet or plinth lighting, shelving or backlighting mirrors to large scale applications such as low-level lighting in corridors, dropped ceilings, cove lighting, doorways, handrails and staircases can be achieved. A wide range of extrusions and diffusers are available to suit any location and produce different effects. For example, a continuous, seamless line of light can be created when mounted in Maxi extrusions combined with Liger diffusers.

RGBWW 5-in-1-LED Tape is a high powered 24W per 5-metre strip light powered by 24V. It carries an IP67 rating making it suitable for outdoor use.

The tape includes RGB, pure white and warm white. The input voltage is DC24V

The **Zonik Smart Driver** is an innovative wireless LED power supply, designed to transform the way we control our lighting systems via WIFI (up to 20m). This power supply allows users to effortlessly control their lights through the TUYA App and easily customise their lighting set-ups.

The Zonik Smart Driver is an innovative wireless LED power supply, designed to transform the way we control our lighting systems via WIFI (up to 20m). This power supply allows users to effortlessly control their lights through the TUYA App and easily customise their lighting set-ups.

Key Features

- **WiFi & Bluetooth Connectivity**: Control your lighting from anywhere within a 20m range using your smartphone.
- **CCT + RGB Control:** Adjust colour temperature (warm to cool white) and choose from millions of RGB colours to suit any mood or occasion.
- **Music Sync Mode:** Let your lights dance to the beat—TUYA uses your device's

- microphone to sync lighting effects with your music.
- **Smart Scheduling:** Automate your lights to turn on/off based on custom times or natural cycles like sunrise and sunset.
- **Scene Creation**: Build personalised lighting scenes for reading, relaxing, working, or entertaining.
- **Group Control:** Manage multiple lighting devices simultaneously for a cohesive lighting experience.
- **Timer Function:** Set countdowns or recurring timers to save energy and enhance convenience.
- **Dimming & Brightness Adjustment:** Fine-tune your lighting levels to create the perfect atmosphere.
