Master Twinkle Light 24V (With Controller) has 180 lamps on waterproof green rubber cable and is suitable for indoor or outdoor use. There is an option of linking up to 5 strings on a continuous circuit using the 6 way connector included. The 5 add-on twinkle lights can be purchased separately. Also includes 8 function controller and transformer.

The shimmering spontaneity is controlled by a discrete controller to regulate the flashing speed and motions, creating an instantaneous, glittering rhythm.

To enhance your display use the optional **Twinkle Light Tops** which are available in red, green and white.

These lights have a round 2 pin plug. They will require either wiring to a 13A UK mains plug or using an adaptor
