10M 30 x 15W

Quicklink: Q660A

General

Cable Colour	White
Cap	ES / E27
Colour	White
Construction	Rubber
IP Rating	IP44

Dimensions

Length	10m
Width	13mm

Electrical

Maximum Wattage	450W (30 x 15W)
Voltage	240V

The **Festoon String Light 240V** is a 10M exterior string light. There are a total of 30 Lampholders on the string with a distance of 30cm between them. The powerlead has a length of 160cm and the distance between the cable to the first light is 22cm. Each lampholder has rubber rings that tighten around the lamp allowing them to have an IP rating of 44 making them ideal for outdoor use.

These Festoon sets can be linked together thanks to the plugs at the end of each set with one end to be linked to the plug cable and the other to be linked to other sets to make a maximum wattage of 1500W. If using 5W LED Bulbs, ten sets can be joined together. When connected together the cable between 10m to 10m is 44cm. The actual length of the Festoon String Light (Cable + Powerlead) is approx. 11.8m
