PIXO 005445 L/B

Textured Black 52W 3000K Warm White

Quicklink: Q679F

General

Colour	Black
Construction	Aluminium
Dimmable	No
IP Rating	IP20
RAL Colour Code	RAL 9005
Weight	1.246kg

Dimensions

Diameter	91mm
Height	303mm
Horizontal Rotation	345°
Vertical Rotation	90°

Electrical

Maximum Wattage	52W
Voltage	240V

Light Characteristics

Beam Angle	24,36,54°
Colour Rendering Index	90
Colour Temperature	3000K Warm White
Lumens	4725 lm
Lumens Per Watt	91 lm/W

PIXO Three Circuit Track Light is a sleek and sophisticated Integrated LED Spotlight Track Light. Crafted with a seamless and minimal integral design with no visible screws, this spotlight exudes elegance without compromising on functionality - perfect for retail settings prioritising a polished look.

Constructed with a robust die-cast aluminium body and featuring a passive cooling heatsink, Pixo Track Light spotlight ensures durability and efficient heat dissipation. With beam angle of 36° and **featuring additional lenses for alternative beam angles of 24° and 54°**, this track light offers versatility to suit your specific needs.

Experience optimal illumination with a high colour rendering index (CRI) of Ra: 90 typical, expect true-to-life colours that enhance your products' presentation.

It boasts an ultra-low LED flickering rate of 5% or less, along with a power factor of >0.90 for consistent performance.

Its flexible range of horizontal rotation (345°) and vertical tilt (90°) allows for precise positioning, catering to your unique display requirements. Three circuit track lighting is a versatile and flexible lighting system commonly used in commercial and residential spaces. The singularity of this lighting track system is that each of the three circuits can be wired and controlled independently, allowing you to have different lighting configurations in the same space. This means you can have multiple sets of lights on the same track, each set with its own switch or dimmer control.
