

LAS10052 BLK

Black 20W 3000K Warm White
Quicklink: Q6838

General

Colour	Black
Construction	Aluminium
Dimmable	Yes
IP Rating	IP20

Dimensions

Height	24mm
Length	615mm
Width	26mm

Electrical

Maximum Wattage	20W
Voltage	48V

Light Characteristics

Beam Angle	150°
Colour Rendering Index	90
Colour Temperature	3000K Warm White
Lumens	1000 lm
Lumens Per Watt	50 lm/W

Laser Track Configurator

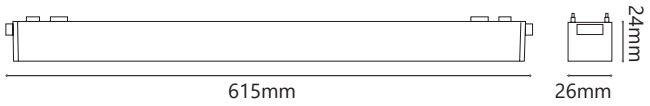

The **LED Long Panel** for the Laser Track 6mm is designed to evenly illuminate large surfaces, enhancing architectural features, textures, and artwork with uniform light distribution. The magnetic fitting securely attaches to the track, allowing easy moving whenever necessary. Whether you want to change the lighting arrangement in a room or experiment with different angles, it offers the freedom to adapt your lighting setup without hassle.

The Laser ultra slim 48V track system is an innovative lighting solution that seamlessly integrates with your ceiling. With a depth of only 6mm, it creates a modern and clean finish, giving the impression of being plastered in. This surface-mounted system is specifically designed for easy and fast installation. Each rail track has several holes to be screwed in until the whole rail is securely fixed to the ceiling.

Ideal for residential use thanks to its slim depth and long run, the Laser Track allows for a wide range of lighting configurations. By clicking the power feed into your desired position, you can easily run the track and fittings along the ceiling or walls with the help of joints, offering flexibility in your lighting scheme.

The magnetic fittings provide an easy solution for flexible lighting design, allowing a seamless combination of various LED fixtures on a single track. The intuitive magnetic design makes it easy to reposition light fixtures, making the installation process straightforward and hassle-free.
