Colour Temperature	6000K Daylight
Lumens	28000 lm
Lumens Per Watt	140 lm/W

This high-performance LED Slim Floodlight 240V is designed for outdoor use, offering powerful and energy-efficient illumination for a variety of settings. With its IP66-rated waterproof and dustproof housing, it is built to withstand harsh weather conditions, making it ideal for lighting large areas such as stadiums, parking lots, and industrial sites. With modern lighting features, easy to install and adjust. The floodlight delivers bright, uniform lighting with a 90° beam angle and is constructed with durable materials with a 4mm tempered glass cover, strong protection and good optical function to ensure long-lasting operation and minimal maintenance.

Floodlights are used to provide broad, intense lighting over large outdoor or indoor areas. They are ideal for illuminating spaces such as sports fields, parking lots, building exteriors, and construction sites, where wide coverage and visibility are crucial.
