Neon Ropelight 2 Wire 10mm Diameter 240V is compatible with all 10mm 240V optional and required accessories. The price quoted for this item is per metre.

This product is widely used in the illumination and decoration of the outlines and patterns of buildings. It is flexible, unbreakable and pressure resistant and can be cut, extended, twisted and formed into any imaginable design.

This version of Neon Ropelight is capable of creating a flashing effect when used in conjunction with a controller (available separately).

Please note that **Neon Ropelight** can only be cut where the silver dot appears on the tube. This means that this product can be cut every 36 lamps (1m).

Please Note: Once Ropelight is cut cannot be returned.
