With its contemporary design and simple shape, the award-winning Artist is a beautiful candidate for a future classic. The build-in LED panel is covered with an opalized shade that softens and diffuses the light. As the name suggests, the design is inspired from the world of music – by a drum kit cymbal. Design by Bønnelycke MDD.

The Artist Pendant comes with an integrated LED light source, which is energy efficient and long-lasting. Different colours and sizes are available in this range, allowing you to choose the perfect match for your home's décor.

Please note that the cable of the Artist Pendant cannot be replaced. The cable is designed to be a part of the overall design and cannot be changed. With its timeless design, high-quality materials and energy-efficient LED light source, The Artist Pendant is a must-have piece for any design-savvy home. It will be treasured for years to come.
