Dimensions

Depth	75mm
Height	175mm
Width	330mm

Electrical

Maximum Wattage	30W (2 x 15W)
Voltage	240V

The **Linear Plaster Up and Down LED Wall Light** is a slim and compact up and down light with a shallow projection of just 75mm from the wall.

It features frosted diffusers, both on top and bottom of the light, obscuring the light's innards, whilst allowing efficient convection cooling via the small slits on the upper diffuser.

This light works well in medium to large rooms and spaces, and is ideally suited to use in bedrooms and stairwells, where a slim projection is desirable.

Please note: These fittings are made from plaster, so slight variations and minor imperfections are normal and add to their unique character.

This fitting uses a R7s Lamp (not included)
