LED Strip Flexible Tape is a versatile light source with a wide range of uses that can be either decorative or functional. Easy to install with pre-fitted double-sided backing tape and can be cut to a specific length.

Anything from a short linear run of light for under cabinet or plinth lighting, shelving or back lighting mirrors to large scale applications such as low level lighting in corridors, dropped ceilings, cove lighting, doorways, handrails and staircases can be achieved. A wide range of extrusions and diffusers are available to suit any location and produce different effects.

LED Tape Ultra Waterproof carries an IP68 rating making it suitable for bathrooms and kitchens. It is ideal for outdoor use and can even be submerged in water.

LED tape power cord included and is 2000mm long. This LED Tape has a power cord in one end and a end cap in the other end. Multiple power cords can be connected to one driver. This LED tape can be cut every 100mm.

This LED tape is dimmable and we recommend using the Triac LED Dimming Driver. Ensure the dimming driver you use exceeds the total wattage of the LED Tape.
