Lumens Per Watt	63 lm/W

SLIM pendant from LIGHT-POINT is an elegant, discreet, and efficient light source, ideal for use over, for example, dining or meeting tables. Suspended like a trapeze on two thin fabric cables and with a discreet bracket, it effectively casts a soft, warm, and diffused light over any surface it illuminates.

SLIM pendant is available in several colours and in three lengths: 120 cm, 150 cm, and an impressive 180 cm. With two built-in colour temperatures, you can choose between 2700K and 3000K using the switch in the installation base. The lamp, equipped with the best and most compact LED technology, is only 1 cm thick and 5 cm wide and made of aluminium. Thus, SLIM pendant does not disturb the view through window or door openings.

It provides tranquillity to the eyes and space for life.
